Redville welcomes Main Street Veterinary Clinic

Redville, PA — As of March 1, 2022, Main Street Veterinary Clinic has officially opened its doors to the local feline, canine, and exotic critters of the greater Redville area led by Dr. Daniel Jones and Dr. Kathryn Smith.

“We are incredibly excited to begin this new adventure in Redville,” said Dr. Jones, Chief Veterinary Officer of the practice. “Redville won’t regret inviting us into the community! Their pets will absolutely thank us.”

Main Street Veterinary Clinic is open to treating cats, dogs, rodents, reptiles, arachnids, and any other exotic animals the locals may need care for. In their combined 40 years of experience in the field, Dr. Jones and Dr. Smith are best known for their ACL surgeries, spinal procedures, amputations, and even cancer treatments.

“We’ve seen thousands of patients over the last couple decades of veterinary practice between the two of us, and there hasn’t been a case we weren’t going to fight our hardest for,” said Dr. Smith. “It was time we put our expertise together to provide even better services for our patients.”

Main Street Veterinary Clinic is also the first veterinary clinic in Redville to offer canine chiropractic services.

“We are happy to announce that we’ve partnered with National Board Certified Dr. Gabrielle McDonald to offer chiropractic services,” said Dr. Smith. “We have been working with her for the last decade and have witnessed her incredible work and the positive impact she’s made to every dog in her care. We are confident that she will allow us to provide an even broader breadth of services.”

Clients can make appointments by either calling the office at 555-555-1234 or making an appointment online at mainstreetvet.com. The practice will be open Monday through Saturday from 8:00 am to 8:00 pm with an on-call doctor available on Sundays.
